Who We Serve

Clients and Agency Partners

As people face the exhausting challenge of finding affordable and stable housing, they are often left with severely limited resources to furnish their home.

By relieving the pressure to purchase furnishings and offering a dignified experience to select those items, Bridging provides the comforts of home and allows clients to focus on the crucial matters in their life.

Our Model

Clients are referred to Bridging through a network of 270 contracted social service partners and more than 2,400 referring caseworkers.

Agencies determine the household needs and schedule the appointment. At the appointment, clients work directly with volunteers to hand select most of the items they may need.

Review our Agency Guidelines and submit an agency application.

Step 2

Upon approval, join us for a tour and training. ALL interested staff are encouraged to attend.
